RE: NOTIFICATION OF POTENTIAL DEFICITS AND WRITTEN PLAN DUE JAN. 31, 2024

Dear Cleveland Municipal School District Board of Education:

The Ohio Department of Education and Workforce (Department) is required to examine five-year forecast submissions to determine if a school district has the potential to incur a deficit during the first three years of the five-year forecast period. The Department examined your district's fall 2023 five-year forecast submission (attached) and identified ("flagged") forecasted deficits in the following fiscal years:

- A Year 1 (FY24) deficit on line 10.010 of (Not Applicable)
- A Year 2 (FY25) deficit on line 10.010 of -\$18,334,639
- A Year 3 (FY26) deficit on line 12.010 of -\$168,033,031

In accordance with [Ohio Revised Code 5705.391](#), this letter serves as notification to the district and the Auditor of State that these potential deficits exist. The Department considers your district to be in a "precautionary" financial state, and [Ohio Administrative Code 3301-92-04](#) requires the district to submit a board of education-approved written plan to eliminate any current-year deficit and avoid any "flagged" future deficits.

A recap of the flagging process and a discussion of the written plan requirements for each of the three years examined is included in this letter to inform the district of the different expectations as forecasted deficits become more current.

Current-Year (FY24) Deficit

The Department uses line 10.010 to identify a current-year (FY24) deficit and [Ohio law](#) requires districts to take immediate action to eliminate any current-year deficit. The

Department requires the district to submit a written plan documenting the actions the district has or will implement as soon as possible. In addition, Department representatives will be contacting district administrators to discuss the district's action steps and the possibility of placing the district into fiscal oversight (caution, watch or emergency).

Year 2 (FY25) Deficit

The Department also uses line 10.010 to identify a deficit in Year 2 (FY25), which is only five months away from your written plan due date. If the district has a renewal and/or new levy on the ballot, the Department recognizes these ballot initiatives as the district's preferred "Plan A" and understands passage of these levies will have a significant, favorable impact on the projected deficits. However, due to the imminent nature of the FY25 deficit and the time it takes to implement expenditure reduction plans, the Department also requires the district to develop a contingency "Plan B" which the district commits to implement in the event "Plan A" ballot initiatives fail.

The Department considers a Year 2 deficit to be the most critical deficit to eliminate and time is of the essence. To avoid having this deficit become a current-year reality, the district may need to implement the written plan this spring or summer, understanding that any reductions made may be reinstated if final levy attempts succeed. A district that does not proactively prepare an adequate written plan and commit to examining and actively managing district expenditures to avoid a current-year deficit may be placed into fiscal caution, watch or emergency over the coming months.

Year 3 (FY26) Deficit

For Year 3 (FY26), which is 17 months away from your written plan due date, the Department identifies a potential for deficit using line 12.010, thereby assuming renewal levies will pass. If the district forecasts any new levies to cover any remaining deficits, the Department will consider the forecasted new levies to be the district's preferred "Plan A." In these instances, the district should develop and submit a written plan that documents the district's contingency "Plan B" consisting of the expenditure reductions the district plans to implement if forecasted new levies fail.

Written Plan Requirements

To assist the district in developing an adequate and approvable written plan, the Department provides a "PRECAUTION Written Plan Workbook" (attached). The submitted written plan must contain a narrative letter and all worksheets provided in the PRECAUTION Written Plan Workbook. If these written plan documents are not received on time or found to be unacceptable, the Department may determine it is necessary to place the district in fiscal caution.

The written plan must satisfy the following requirements to be acceptable:

- 1) Demonstrate the district board of education is actively engaging in proactive measures to reduce expenditures and eliminate the forecasted deficits.
- 2) Describe and quantify reductions at an appropriate level of detail.
- 3) Be reasonable and sufficiently cover any deficit(s) forecasted in the first three fiscal years.
- 4) Contain implementation timelines that are obtainable;
- 5) Include a narrative that:
 - a) Provides a summary of the significant changes in assumptions, revenue enhancements or expenditure reductions posted in the written plan workbook;
 - b) Explains how the board of education will be kept informed about the status of the written plan implementation, including the financial reports to be used to monitor and manage the district's financial status;
- 6) All pages of the written plan workbook and accompanying narrative must be approved by the district's board of education.

The school board president, superintendent and treasurer must sign both the written plan workbook and narrative and email them to FiscalOversight@education.ohio.gov no later than Jan. 31, 2024.

If you would like help developing the written plan or need information about the fiscal oversight process, please contact me or your fiscal consultant, Barb Markland, at 614-961-9218 or via email at Barb.Markland@education.ohio.gov. We look forward to working with you as you seek to strengthen your district's financial position.

Forecast Purpose/Objectives

Ohio Department of Education's purposes/objectives for the five-year forecast are:

1. To engage the local board of education and the community in the long range planning and discussions of financial issues facing the school district.
2. To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate."
3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

Forecast Methodology - This forecast is prepared based upon historical trends and current factors. This information is then extrapolated into estimates for subsequent years. The forecast variables can change multiple times throughout the fiscal year and while cash flow monitoring helps to identify unexpected variances no process is guaranteed. The intent is to provide the district's financial trend over time and a roadmap for decisions aimed at encouraging financial sustainability and stability.

Note: Cash balance (Line 7.020) plus any existing levy modeled as renewed or new during the forecast.

Line 7.020 Ending Balance with renewal/new levies	140,928,279	(2,334,639)	(152,033,031)	(319,019,129)	(498,012,108)

Analysis Without Renewal Levies Included:

Revenue Surplus or Deficit w/o Levies	31,411,308	(143,262,917)	(149,698,392)	(166,986,098)	(178,992,979)

In FY 2024 a revenue surplus is expected. This means that expenditures are expected to be less than revenue by -\$31,411,308 in FY 2024. By the last year of the forecast, FY 2028, the district is expected to have a revenue shortfall where expenditures are projected to be greater than revenue by \$178,992,979. The district would need to cut its FY 2028 projected expenses by 20.47% in order to balance its budget without additional revenue.

The district's cash balance is positive at year-end in FY 2024 and is projected to worsen by FY 2028. A worsening cash balance can erode the district's financial stability over time.

Ohio adopted the Fair School Funding Plan (FSFP) in FY 2022. The plan was continued with increasing phase-in of the formula results. In FY 2024 the per pupil base cost calculations were updated from FY 2018 cost data to FY 2022. For Cleveland Municipal School District the calculated Base Cost total is \$269,608,455 in FY 2024. The state's share of the calculated Base Cost total is \$182,388,074 or \$5,529 per pupil.

2027	6,312,325,130	205,000,000	32.00	(1.20)	50.34	(0.62)	97.2%

Real estate property tax revenue accounts for 31.47% of total revenue. Class I or residential/agricultural taxes make up approximately 40.35% of the real estate property tax revenue. The Class I tax rate is 39.03 mills in tax year 2023. The projections reflect an average gross collection rate of 97.2% annually through tax year 2027. The revenue changed at an average annual historical rate of 4.09% and is projected to change at an average annual rate of 0.56% through FY 2028.

**Projected % trends include renewal levies*

1.020 - Public Utility Personal Property

Revenue generated from public utility personal property valuations multiplied by the district's full voted tax rate.

The public utility personal property tax revenue is generated from the personal property values, additions, and depreciation reported by the utility companies. This category currently makes up 5.93% of total district revenue. The property is taxed at the full voted tax rate which in tax year 2023 is 76.7 mills. The forecast is modeling an average gross collection rate of 100.00%. The revenue changed historically at an average annual dollar amount of \$2,601,512 and is projected to change at an average annual dollar amount of \$1,884,575 through FY 2028.

**Projected % trends include renewal levies*

1.030 - No Income Tax

Revenue collected from income tax earmarked specifically to support schools with a voter approved tax by residents of the school district; separate from federal, state and municipal income taxes.

The district does not have an income tax levy.

**Projected % trends include renewal levies*

1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

Beginning in FY 2022 Ohio adopted the Fair School Funding Plan (FSFP). Funding is driven by a base cost methodology that incorporates the four components identified as necessary to the education process. The Base Cost is currently calculated for two years using a statewide average from historical actual data.

For Cleveland Municipal School District the calculated Base Cost total is \$269,608,455 in FY 2024.

The state's share of the calculated Base Cost total is \$182,388,074 or \$5,529 per pupil.

The FSFP also started funding students where they attended school. Therefore district educated enrollment is now used for per pupil funding. At the same time, the FSFP eliminated tuition transfer payments from school districts.

1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted aid is the portion of state per pupil funding that must be classified as restricted use. Historically the district's restricted state aid changed annually on average by \$3,358,085 and is projected to change annually on average by \$2,385,261. Restricted funds represent 8.36% of total revenue. Starting in FY 2022 the district's Success & Wellness funding is considered restricted, the state's share of this funding is recorded as restricted is \$7,945,282. This funding has implications on general fund expenditures in that certain spending now occurring in a fund external to the general fund could shift to the general fund. The expenditures in this forecast are adjusted to reflect this change.

1.050 - State Share of Local Property Taxes

Includes funds received for Tangible Personal Property Tax Reimbursement, Electric Deregulation, Homestead and Rollback.

State Share of Local Property Taxes primarily consists of reimbursements from the state of Ohio for local taxpayer credits or reductions. The state reduces the local taxpayer's tax bill with a 10% rollback credit, and 2.5% owner-occupied rollback credit, plus a homestead credit for qualifying taxpayers. In FY 2024, approximately 10.4% local residential property taxes will be reimbursed by the state in the form of rollback credits and approximately 4.7% will be reimbursed in the form of qualifying homestead exemption credits.

**Projected % trends include renewal levies*

1.060 - All Other Operating Revenues

Operating revenue sources not included in other lines; examples include tuition, fees, earnings on investments, rentals, and donations.

Other revenue includes tuition received by the district for non-resident students educated by the district. It also includes interest income, payments in lieu of taxes, and miscellaneous revenue. The historical average annual change was \$5,175,920. The projected average annual change is -\$4,399,330 through FY 2028.

2.070 - Total Other Financing Sources

Includes proceeds from sale of notes, state emergency loans and advancements, operating transfers-in, and all other financing sources like sale and loss of assets, and refund of prior year expenditures.

3.010 - Personnel Services

Employee salaries and wages, including extended time, severance pay, supplemental contracts, etc.

Salaries represent 53.41% of total expenditures and increased at a historical average annual rate of 0.75% or \$1,701,317. This category of expenditure is projected to grow at an annual average rate of 3.58% or \$13,863,521 through FY 2028. The projected average annual rate of change is 2.83% more than the five year historical annual average.

3.020 - Employees' Benefits

Retirement for all employees, Workers Compensation, early retirement incentives, Medicare, unemployment, pickup on pickup, and all health-related insurances.

Benefits represent 22.70% of total expenditures and increased at a historical average annual rate of 3.21%. This category of expenditure is projected to grow at an annual average rate of 8.10% through FY 2028. The projected average annual rate of change is 4.89% more than the five year historical annual average.

3.030 - Purchased Services

Amounts paid for personal services rendered by personnel who are not on the payroll of the school district, expenses for tuition paid to other districts, utilities costs and other services which the school district may purchase.

Purchased Services represent 11.16% of total expenditures and decreased at a historical average annual rate of -19.65%. This category of expenditure is projected to grow at an annual average rate of 16.32% through FY 2028. The FSFP funds only district educated enrollment thereby reducing tuition cost for open enrollment out, community schools, STEM, and scholarships starting in FY 2022. This change resulted in lower district cost but also less per pupil state revenue since per pupil funding was paid directly by the state to the attending school.

3.040 - Supplies & Materials

Expenditures for general supplies, instructional materials including textbooks and media material, bus fuel and tires, and all other maintenance supplies.

Supplies & Materials represent 1.69% of total expenditures and increased at a historical average annual rate of 43.97%. This category of expenditure is projected to grow at an annual average rate of 30.01% through FY 2028. The projected average annual rate of change is -13.96% less than the five year historical annual average.

3.050 - Capital Outlay

This line includes expenditures for items having at least a five-year life expectancy, such as land, buildings, improvements of grounds, equipment, computers/technology, furnishings, and buses.

Capital Outlay represent 0.39% of total expenditures and decreased at a historical average annual amount of -\$377,588. This category of expenditure is projected to grow at an annual average rate of \$1,977,445 through FY 2028. The projected average annual change is less than the five year historical annual average.

3.060-4.060 - Intergovernmental & Debt

These lines account for pass through payments, as well as monies received by a district on behalf of another governmental entity, plus principal and interest payments for general fund borrowing.

The Intergovernmental/Debt expenditure category details general fund debt issued by the District.

4.300 - Other Objects

Primary components for this expenditure line are membership dues and fees, ESC contract deductions, County Auditor/Treasurer fees, audit expenses, and election expenses.

Other Objects represent 0.44% of total expenditures and decreased at a historical average annual rate of -7.41%. This category of expenditure is projected to grow at an annual average rate of 63.25% through FY 2028. The projected average annual rate of change is 70.66% more than the five year historical annual average.

5.040 - Total Other Financing Uses

Operating transfers-out, advances out to other funds, and all other general fund financing uses.
