

HARRIS *for* PRESIDENT

With Vice President Harris now the expected Democratic nominee for President, our campaign is already cementing the choice with voters in the states between her positive vision for the future and Trump's Project 2025 agenda to drag America into the past.

No one is better prepared to prosecute the case against Donald Trump than Vice President Harris, and local leaders from elected officials to members of organized labor are already campaigning on her message of fighting for our freedoms and slamming Trump's Project 2025 agenda.
